

re:imagine

a missional learning community
especially for leadership teams

Residential Launch Weekend

19 - 20 October 2024

followed by 3 whole day hub gatherings, 6 months apart

Why?

To enable any leadership team in one of our Baptist Churches to build momentum in the transition towards mission becoming

the heart of all they are
and no longer
simply something they do.

Who for?

Any church that's feeling stuck.

Any church that wants to build momentum towards
the future God wants.

When?

We begin with a residential weekend, followed by three further, non-residential gatherings. These will take place every 6 months, over an eighteen month period.

We hope this will give time to embed

all God is leading us towards.

Nigel Coles explains...

Re:Imagine?

"You will never see what you cannot imagine. Imagination is more important than knowledge. Imagination is everything". (Albert Einstein)

"Your sons and daughters will prophesy, your old men will dream dreams, your young men will see visions". (the prophet Joel 2:28).

Community?

Re:Imagine is very much a community where people learn most from one another in the context of a shared experience. There is something very special about the dynamic exchange of thinking and practice, which takes place when teams grow in both confidence and vulnerability. No one is better than anyone else - but rather a fellow traveller on a journey, where everyone can learn from others and celebrate what God is doing.

Missional?

For many people this has simply replaced the word 'mission'. If that is all we do, it's not even akin to moving one deckchair on the Titanic. Missional represents a change of mind and practice. It means that, in order to glorify God, we make our main purpose *being equipped for*, and *engaging in*, the mission of God. This embraces both being and doing and can become the wellspring for our motivation and the direction for our living.

Learning?

One of the roots of meaning for our word 'discipleship' means learning. Unsurprisingly, coming out of the Hebrew mind, we only 'know' anything after we've done it, or the truth is embraced by real people and become part of the practice of their lives.

One of the greatest benefits of Re:Imagine is helping to translate our *thinking into practice*.
